# About Us

Leading Online Investment Platform

True North Investment Company is a thematic investment firm defined by a purpose-driven team that has come together to invest in so many portfolios that address some of our global challenges.

We focus on our investors across the globe .Our investments across the three themes have the potential for long term sustainable out performance because they address some of the social, environmental, and business challenges we need to solve as a society.

We are here because we are passionate about open, transparent markets and aim to be a major driving force in widespread adoption investment.

## WHY ARE WE CAPABLE OF SUCH A BIG MISSION?

We've been building, managing, and scaling industrial-scale mining operations for nearly a decade.

### COMPANY CULTURE AND TEAM

Our vision would never become a reality without our team. We want to connect their faces to the success we achieve.

### WE SET OUT TO BUILD A BETTER WAY TO INVEST

Our goal is to build a better financial system for the individual investor — one that is simpler, more reliable, lower cost and transparent.

Although our business and the technology we build has continued

to evolve, our mission has always remained the same: to empower the individual investor. That's why we obsess over things like cost efficiency, minimizing fees, frequent candid communication, and developing smarter tools that provide better insights.

Perhaps the clearest manifestation of this investor-first approach is the fact that we're investor-owned, allowing investors in Asset real estate portfolios to become fellow shareholders of the company itself. This lets us minimize our dependency on outside capital and better align our long-term interests with the long-term interests of our investors — in short, making our success their success.

Almost a decade later, we're still just getting started. Welcome to the future of real estate investing.
